COSM

Creation Of Sustainable Materials

Sustainability and responsible manufacturing processes have been at the core of ISA Tan Tec's business model since LITE's inception in 2003. In late 2020 we built on this foundation by establishing our COSM division. COSM specializes in the development and production of additional sustainable materials alongside our core leather products.

We hope you'll follow us on this journey and look to ISA TanTec for responsibly manufactured biobased materials.

HyphaLux

Non-leather biobased material
Smooth, Milled, Embossed + Printed versions
Thicknesses: 0.9-1.3mm, 1.2-1.6mm
Colors: Specific Color Palette available

ISA
TanTec

HyphaLux is a highly sustainable, greater than 90% biobased and USDA BioPreferred material. A perfect non-leather product to replace petro-chemical based synthetics.

>90% Biobased
Biodegradable
Regenerative
VFSC Certified
